

It is said that most people think they can do two things—poke the fire and run a newspaper—better than anyone else.

The Tropico Inter-urban Sentinel

Gratitude is the fruit of the Spirit
ingratitude the spewing of hell.
We should ever watch that we be
not made hell's mouth.

A better country than the San Fernando Valley to live in may have been made, but has not yet been discovered.

VOL. III

TROPICO, CALIFORNIA, WEDNESDAY, JULY 2, 1913

No. 20

LAST WEEK WAS GIVEN OVER TO COMMENCEMENT EXERCISES

Union High School Students Do Themselves Credit and Show the Result of Good Training. A fine Lot of Young Ladies and Gentlemen Graduates

TEACHERS HAVE ALL DONE GOOD WORK

A School That Can Make Such a Creditable Showing Deserves the Best. Weren't You Proud of Our School Last Week?

Last week, the closing week at the Glendale Union high school, was one continuous round of pleasure for the graduating class of fifty-two members, the largest of any class ever graduated from Glendale high. The class consisted of thirty-six girls and sixteen boys, and we are told by the instructors of the school that never was a more pleasant and agreeable company of young people assembled than constituted this class.

For a long time prior to commencement week the students had been preparing for the events. At evening time, after study hours, there were orchestra and glee club practices, play rehearsals, etc. So, in fact, commencement week was hardly any busier than were the few weeks previous to the week of closing. The students worked hard and faithfully. Their earnest endeavor was manifest in the manner in which the various events were rendered—everything "went off without a hitch."

The festivities started with the baccalaureate sermon which was delivered in the high school auditorium by Rev. Walter E. Edmonds, pastor of the Presbyterian church of Glendale. The graduating class occupied the front center of the auditorium, while the remainder of the large room was filled to overflowing with interesting spectators. This was indeed an event worth attending. Many fragrant flowers had been utilized to beautiful effect in the decorations. A number of local people assisted in the program of the evening.

The class play, "Charlie's Aunt," was given on Monday and Tuesday evenings. Only the members of the graduating class appeared in the cast of this piece. To say that the students played their parts well would be putting it extremely mild, for the manner in which the various, especially the leading, character were impersonated, were, as Miss Hick-

le, delivered the principal address of the evening. The following program was given: March, Hallander, high school orchestra; piano trio, overture to "Lustspiel," Evelyn Kent, Alice Beach, Bessie Brewster; invocation, selections, Senior Girls' glee club; address, John Willis Baer, president of Occidental college; string trio, Gipso Ronde, Cecil Crandell, Dana Burket and Katherine Hobbs; presentation of class memorial, Blanch Lyons; presentation of class, Prof. G. U. Moyses, principal of the school; presentation of diplomas, Dr. A. L. Bryant of Glendale, secretary of Board of Education; march, orchestra. The hall had been elaborately decorated for the occasion with hundreds of flowers and greenery.

Friday evening the high school was "dark." In other words the students rested for the strenuous time they knew was coming on the following night.

At La Ramada, Saturday evening, the fifty-two members of the Senior class were initiated into the ranks of the high school alumni. Every effort had been made by the alumni members to provide an "interest" program for the newcomers. Since the affair we have been told by several of those who were "sworn in" that the program was indeed a well-arranged one. The affair started out with a mock trial. A demand was made by the alumni of the student and when it was found that the Seniors could not meet it they were deemed guilty and sentenced. There were a number of varieties of stunts, but somewhat of a damper was put upon the fun when one of the fair young maidens badly tore her dress while crawling through a barrel blindfolded.

The affair wound up with ice cream and cake being served by the alumni on the long tables beneath the arbor. The occasion was hugely enjoyed by all attending. Sunday and Monday evenings the students rested up from their week's activities, but on Tuesday night came the final reckoning. The reports were given out and farewells spoken.

The crowning event of the week came on Thursday evening—the graduating exercises. For this event only a limited number of invitations had been issued and as a result the school auditorium was comfortably filled. This was the graduates' inning and the on-lookers stood aside. John Willis Baer, president of Occidental col-

TROPICO WINS AGAIN

Base Ball Club Puts Another One Over. 1 to 0

Still coming to the front! The Tropico boys took Sunday's game with a score of 1 to 0. It was the fastest game yet played, and the boys played ball for all they were worth. And they played, too. It will be remembered that the Berlins beat Tropico in the first game played with a score of 7 to 3. This time the Berlins had a better team, but that didn't matter, for the Tropico boys are beginning to get limbered up now. There were only three that got as far around as third base, two Tropico boys and one Berlin. Sisney made the only two base hit, and it was Dave Salazar that made the home run. Salazar is that pitching demon, and he will be with the Tropico boys every Sunday hereafter. He played left field Sunday, as the Berlins couldn't even hit Sisney, let alone Salazar. There was a pitching duel on between Sisney and Doll for nine innings, but there was an explosion when the Tropico boys went to bat in the last half of the ninth inning. They had a "scoring" look in their eyes which meant something. But it seemed like it was not going to do any good, for Ukoteer struck out, Salazar made a one base hit, and then Vaulet struck out.

It was two outs and only one on base when Rich went to the bat. Salazar stole to second, knocking the ball out of the second baseman's hand. This got Doll rattled, and he walked Rich. And then came that little prince, Shortstop Al Gabaig. There were two strikes and two balls on Gabaig, when he didn't do a thing but let drive at that ball and sent it right straight down to pitcher's box. It was too hot for Doll, and Van Meter is said to have jumped ten feet in the air so it wouldn't collide with him. The ball struck the pitcher's box and went up in the air about twenty feet, and while the Berlins were looking to see where it went, Salazar came in home with a smile ten feet long on his face.

This makes the fourth game played by the Tropico boys, and they have won three of them. Since there has been a marked improvement in every way, and there is no doubt but what Tropico will have a first class team. In order that Tropico can have the best in the baseball line, the boys are trying to get some real good teams that will visit them each Sunday. The aim of the boys is to have the best whenever possible, and everybody should come and help boost and root for the boys.

The score:

THE FIRST NATIONAL BANK OF TROPICO.

Dan Campbell and John Logan were broad smiles Friday. Late Thursday evening a telegram was received in Tropico, addressed to Mr. Dan Campbell, president First National Bank, Tropico, Cal., and the telegram contained official information to the effect that Charter No. 10412 had been granted, authorizing the First National Bank of Tropico to do business and instructing the bank to open Friday morning as a national bank. This was done and Friday was the first day as a national bank. The First National Bank opens with a paid in capital of \$25,000 and a surplus of \$5,000. Dan Campbell, president; John A. Logan, cashier. Directors—B. W. Richardson, N. C. Wells and W. H. Bullis.

The National Bank will be a member of the Los Angeles Clearing House and subjected to the inspection and rules of that association.

The Bank of Tropico, of which the First National Bank is the successor, was organized as a state bank April 16, 1910, and since its organization has been under the same management and control as at present.

As commercial affairs are now adjusted nothing is of more importance to the material welfare of a community than is the bank. Tropico is exceptionally fortunate in having men in control of its bank, who are not only clean, but men who are in touch and in sympathy with the needs of the community and withal careful and conservative.

Mrs. William Herman West, 1427 Hawthorne street, gave a pink luncheon in honor of Mrs. Ella Richardson last Friday. The house was beautifully decorated with pink carnations, hydrangeas and asparagus ferns. Covers were laid for Mrs. Emma Smalley, Mrs. Alexander Mitchell, Mrs. Fay Whaley, Mrs. Frances Ball, Mrs. William Herman West, hostess, and Mrs. Ella Richardson, guest of honor.

Mrs. L. A. Gregory, 402 West Tenth street, has returned from a two and one-half months' trip to Lone Pine, Cal. Mrs. Gregory has been visiting Mrs. Alice Tate, who has a ranch in that section, and she reports that the country looks fine and prosperous—and that they grow wheat and rye there over four feet high.

TROPICO WINS AGAIN

Base Ball Club Puts Another One Over. 1 to 0

Still coming to the front! The Tropico boys took Sunday's game with a score of 1 to 0. It was the fastest game yet played, and the boys played ball for all they were worth. And they played, too. It will be remembered that the Berlins beat Tropico in the first game played with a score of 7 to 3. This time the Berlins had a better team, but that didn't matter, for the Tropico boys are beginning to get limbered up now. There were only three that got as far around as third base, two Tropico boys and one Berlin. Sisney made the only two base hit, and it was Dave Salazar that made the home run. Salazar is that pitching demon, and he will be with the Tropico boys every Sunday hereafter. He played left field Sunday, as the Berlins couldn't even hit Sisney, let alone Salazar. There was a pitching duel on between Sisney and Doll for nine innings, but there was an explosion when the Tropico boys went to bat in the last half of the ninth inning. They had a "scoring" look in their eyes which meant something. But it seemed like it was not going to do any good, for Ukoteer struck out, Salazar made a one base hit, and then Vaulet struck out.

It was two outs and only one on base when Rich went to the bat. Salazar stole to second, knocking the ball out of the second baseman's hand. This got Doll rattled, and he walked Rich. And then came that little prince, Shortstop Al Gabaig. There were two strikes and two balls on Gabaig, when he didn't do a thing but let drive at that ball and sent it right straight down to pitcher's box. It was too hot for Doll, and Van Meter is said to have jumped ten feet in the air so it wouldn't collide with him. The ball struck the pitcher's box and went up in the air about twenty feet, and while the Berlins were looking to see where it went, Salazar came in home with a smile ten feet long on his face.

This makes the fourth game played by the Tropico boys, and they have won three of them. Since there has been a marked improvement in every way, and there is no doubt but what Tropico will have a first class team. In order that Tropico can have the best in the baseball line, the boys are trying to get some real good teams that will visit them each Sunday. The aim of the boys is to have the best whenever possible, and everybody should come and help boost and root for the boys.

Two base hits—Sisney. Struck out—By Sisney 11, Doll 5. Bases on balls—Off Sisney 0, off Doll 1. Hit by pitched ball—0. Double play—Palmer to Jackson. Time of game—1 hour 20 minutes. Umpires—Moniot and Van Meter.

WARM DAYS DON'T BOTHER.

Mr. Guy Maxwell, of Tropico, and Jimmie Mason, of Glendale, who sailed on the 2nd on the Umatilla for Alaska, report that they are having an excellent trip and enjoying themselves very much. The following letter received in Tropico a few days back may be of interest to their friends.

Bering Sea, June 12, 1913.

"It will likely be some time before this reaches you, but it will be a great deal longer before any mail reaches us. I tried to write a letter to you the day we sailed,

but lost my trunk and only found it just in time to get it on the boat before we sailed.

"Just now we are about 130 miles of Nome. Have not seen land for over ten days. The distance from San Francisco to Nome is about 2800 miles. Have had a very pleasant trip and, as usual, escaped from sea sickness. The trip from Los Angeles to San Francisco on the Yale was more rough than on the Umatilla. My stateroom mate nearly missed taking the ship. We were two miles out when the captain saw a launch trying to catch us, so he slowed down and waited. It was Mr. Black, a mining engineer from Los Angeles, and my partner, Judge Rose, mayor-elect.

"The wireless telegraph keeps us posted as to all domestic and foreign news. There are several good singers and musicians on board, so we have plenty of music and entertainment. Of the 400 passengers there are about 25 women. Jimmie Mason, my friend from Glendale, knows nearly everyone on board and is sure some favorite, so I have not been asleep all the time myself. One lady was sick for eight days and nearly died. The captain was down and paid Mr. Black and myself a visit in our stateroom. He is a jolly old fellow."

This is the first letter received in Tropico from Mr. Maxwell. The Sentinel is trying to perfect arrangements to have him tell in each issue all about his trip to the frozen north. These letters will be not only interesting, but instructive.

AN INSTRUCTIVE TALK

The Thursday Afternoon club was entertained at their last meeting with a very instructive talk on kindergartens by Miss Grace Fulmer, supervisor of kindergartens of Los Angeles. Miss Fulmer, who is a very enthusiastic kindergarten, outlined the work of the children and the advantage it was to a child to have the kindergarten as a starting point in its education.

Miss Fulmer said the kindergarten took the child from the home where he or she had been the center of attraction and taught the child two great fundamental truths: one was the adjustment of materials for man's use, the other was the adjustment of the child to those around him. The child could not change June or John or Betty to his wishes, but he could change himself so as to be harmonious with them. Children were taught to play in the kindergarten and to make that play a stepping stone to more practical things. The child was taught to make use of his natural energies, not to suppress them and the children soon learned to turn these energies into productive channels.

The advantage to a child of having kindergarten training over one that did not have this opportunity was that they had learned to adjust themselves to each other; to handle themselves more gracefully, and were more wide awake and quicker to learn the first grade work. It gave them a systematic foundation that was beneficial to them all through their lives.

Miss Fulmer stated that Governor Johnson had signed the bill making it possible for any school district to have kindergartens on a petition signed by twenty-five mothers having children between the ages of 4½ and 6. On such petition being presented to the school board or school trustees, these officers, if they had the funds, would then have to make arrangement for a kindergarten. During Miss Fulmer's talk the fact was brought out that Los Angeles had seventy-two kindergartens and San Francisco only one. Miss Fulmer is a strong advocate of doing away with the regulation school seats and having the children sit in a circle around the teacher, as in the kindergarten. The honorable members of the board of school trustees were present to hear the talk and many were the wishes that when the fall term opened, Tropico might have a kindergarten of its own.

Don't get so excited celebrating the Fourth that you forget that the territory bounded by Tropico, Central and the Southern Pacific is restricted territory and any fireworks exploded in that territory will make trouble and you may come out second best.

The Baraca class of the Glendale Methodist church will play a pick-up Tropico team on the Fourth at the high school grounds.

THE BOARD OF TRUSTEES CONSIDER AND PASS WATER ORDINANCE

Tropico Mercantile Company and The Emporium Granted Permits to Erect Warehouses to Meet the Demands of the Increasing Business.

SPEED LIMIT TAKEN OFF FOR BIG RACE

Specifications To Be Prepared By Consulting Engineer For the New Fire Engine. Other Important Matters Settled.

The board of trustees met in regular session last Thursday evening at the chambers in the City Hall. All members were present with the exception of Trustee Hobbs. After the usual roll call and reading of minutes of last meeting, the following order of business was taken up.

Building Inspector Jennings appeared and presented, for instructions, a request from E. L. Young for a permit to erect a building in the rear of his present store room to be built of corrugated iron and used for a stock room. The motion was carried and Mr. Jennings instructed to issue the permit.

Deputy Clerk Fishback stated that Mr. Gallup of the Mercantile Company wanted to lease some ground across the alley back of the store for the purpose of erecting new stables. The building would be of corrugated iron and would the trustees allow a permit to be issued. If arrangements could be made he would clean out the old buildings now used and convert the room into an on-hand or stock room. The board considered this a good move and instructed the building inspector to issue the permit upon request.

Ordinance No. 60, establishing the grade on Blanche avenue, was read for the third time, passed and ordered published.

The following bills, having been approved by the finance committee, were ordered paid and the city clerk instructed to draw warrants for same:

Pacific Light & Power Co.	\$ 1.00
Pacific Light & Power Co.	1.00
J. A. Chappins	2.50
Tropico Garage	10.50
W. A. Rhoades	18.00
Valley Press	15.70

A communication was read from the Western Automobile Association asking that the trustees raise the speed limit for two hours on the morning of July Fourth, and in any other "way to insure the safety of the drivers and public, while the Panama-Pacific road race was on. The

city clerk was instructed to notify the association that the permit had been granted and that as an extra precaution the city marshal had been instructed to have men with red lanterns stationed at each intersecting street to keep the road clear and that the electric lights would remain on until 4 o'clock, thus affording additional safety to the drivers as well as the spectators.

The ordinance fixing the water rates was up for the third reading. Upon being approved the ordinance was passed to the third and final reading with all amendments attached and being approved, all voting aye, was ordered published.

A letter from the railway commission was referred to the city attorney.

A communication from Mr. Williams, who had the misfortune to break an axle on his auto on Glendale avenue a short time ago, was read, in which he asked damages to the extent of \$150. This matter had previously been referred to the city attorney, who stated that the city was in no way to blame and the city clerk was instructed to so notify Mr. Williams.

President Bancroft was appointed a committee of one to employ a consulting engineer to draw up specifications for a fire apparatus to conform with the requirements needed for the city.

Upon motion, Deputy Clerk Fishback was instructed to purchase a filing cabinet and the necessary folders, to be used for safekeeping of all valuable papers pertaining to the street work being done and to be done in the near future.

No further business appearing, upon motion, the meeting adjourned.

Glendale and Burbank have officially refused to have the Fourth of July firecrackers exploded on that great American day. If this is kept up we are liable to get into diplomatic trouble with the republic of China.

IS IT NOT TIME?

The fight between capital and labor has assumed a most unfortunate aspect at Cincinnati, Ohio. During the last two weeks the city has been sweltering in unusual heat, yet the ice men of that city have gone on a strike and press reports state that men, women and children are not only suffering but actually dying for want of ice.

Of course there are the usual charges and counter charges and no doubt both sides are to blame, but wherein cannot be said, at this distance from the scene. The great question that should interest every man and woman who has the welfare of his or her country and their fellow man at heart is, What can be done to prevent the repetition of such scenes? Capital and labor have been at each other's throat for years and the middle man, the common man if you will, has been the victim, in every instance. Is it not about time the victim took an interest in his own welfare? One of the most successful business men in Tropico, a man who has been actively engaged in mercantile business for over twenty years, recently made the remark that it was his conclusion, after twenty years' observation and experience, that if a business man engaged in what is usually referred to as the legitimate lines kept out of debt, raised a family, gave his children a fair education and had enough left to bury him decently, that he could consider himself lucky. This man is a close observer and considerably above the ordinary run of business men in intelligence and understanding, and such a remark from a man like him is worthy of attention. If such a condition has prevailed during the last generation, is it not time that some steps be taken to give the "common man" some protection and a reasonable return on his labor. I believe that it is safe to say that the average business man works at least fourteen hours out of the twenty-four and if by working that hard and giving to his business the very best that is in him he can only, at best, keep out of debt, raise a family and have enough left to put him away, does it not look that he is getting the worst of the deal for some cause.

I have no fight to make on capital, it is needed; nor have I any fight to make on labor—it also is needed—but I would like to see them both made to respect the rights of the common man, the man who ever bears the brunt of maintaining the government, pays the big end of the taxes, shoulders the burdens and tries to raise children that will perpetuate the ideals on which this government was founded.

WHAT NEXT?

The latest innovation in the world of travel is to sell reserved seats in lifeboats. This innovation has been inaugurated by the steamship department of the California Savings bank. It is stated that in the future the lifeboat coupon will be attached to all tickets, and the advantage is claimed for this new procedure that it will fix in the passenger's mind the location of the lifeboats and the seat he is to occupy.

Such an idea is repugnant to every sense of decency and manhood. A company that would even suggest such a plan can be actuated only by the lowest ideals, and it would be a wise thing to steer clear of them in every way.

HOW MUCH DO YOU KNOW?

What do you know about the proposed High School bonds? Have you made up your mind as to how you are going to vote from what your neighbor has said, or from what you were told by some casual acquaintance on the street car? Or have you taken the trouble to find out the real facts from those who have given the subject careful consideration and investigation? Do you want my child and your child to be hampered for lack of educational facilities? Do you want your child to go out into the world incompetent and incapacitated to do the work that will be expected of him.

The school board is asking for \$100,000. This will add to the taxes of the average lot owner about 25 cents. Are you willing to hamper and cripple the schools for the sake of such a sum?

The statement has been made by some that they propose to vote against the bonds because they do not personally like the Board of Trustees. Others have said that they are opposed to the bonds because they did not like the principal and some of the teachers now employed at the High School. Now, honestly, do you not think this is an extremely narrow view to take of the situation? I have no interest in the trustees, nor in the principal, nor in the teachers employed, but I do want a good, efficient High School. I want you to vote for the bonds and to work for them, because I honestly believe that the plan as outlined is the best thing under the circumstances. I do not believe it feasible or practicable to have separate high schools in the

TIMELY SUBJECTS

To the Serious Readers of the Interurban Sentinel:

The "Health Officer" in making his bow in the new department which Mr. Edwards has kindly established in his esteemed periodical, desires to say: It will be the policy of the Health Officer to treat herein briefly any subject which may seem within his province and conducive to the public welfare. No other factors will enter into these articles.

Any reader who desires to ask questions may do so, by mail, addressing "The Health Officer, Tropico, Cal.", and the same will be answered promptly whenever possible.

Preeminently important today in Tropico is the water question. "Of all the gifts of God to man, Water excels the rest."

It is to be hoped that none will take advantage of this old saying to justify himself in certain particulars by adding

"But modesty forbids that I

Should always take the best."

Should "the best" mean the best water, then forget the modesty and do all in your power to get the very best. Even that is none too good.

The water supply we now have seems good. However, there is absolutely nothing which guarantees a continuance of this condition except purely and literally "the grace of God." We are GETTING water now—to a certain extent—and that is all.

Every voter is urged to post him or her self regarding the whole water proposition without delay. Very shortly there will be submitted to you a plan and proposal worked out by a large number of serious men. This plan the Health Officer believes to be the most desirable solution of our grave water problem. Be prepared to consider it intelligently, to boost energetically and help replace the present unsanitary situation with the best water, service and rates modern engineering science can devise.

different political divisions of the High School district for many years to come. I believe it to be far better to have one, good, strong, centralized High School than to attempt to have three or four excuses for High Schools. The distance from the most remote section of the Union High School district to the present High School grounds is not excessive, and I believe that if we are to have a good High School in this community that each and every one of us must bend our efforts to building and perfecting the present school.

There will be a number of meetings held at different places for the purpose of discussing the bond question. It is your imperative duty to attend one or more of these meetings and to investigate fully before deciding how you want to vote, and then it is your positive duty to vote on the question, either for or against.

The Hon. Joseph E. Ransdell, the sugar senator from Louisiana, is circulating his speech under the frank privilege telling the people why they should continue to contribute to the sugar trust. Great scheme this—the people tax themselves to furnish means to carry documents telling them why they should keep on paying money to enforce taxes against themselves and enrich their taxpayers.

Albert Fall, senator from New Mexico, has attacked and asked for the repeal of the so-called Neutrality Resolution, passed by the last Congress. This is the law which Senator Root of New York fathered and a law that is unjust from every standpoint. The enforcement of this law has cost the United States many thousands of dollars and the only result has been the prolongation of the deplorable conditions in Mexico, and the creation of the belief in the minds of many Mexicans that the United States is premeditatedly taking sides in their disturbances, and as Senator Fall says, has resulted in retaliatory steps towards American citizens that no other nation on earth would permit.

Speaking of the ice question, it appears that Tropico has an ice problem of its own. The cause there is but one concern that will deliver ice within the city limits. The price charged by this concern is arbitrary and exorbitant, and they refuse to make deliveries of less than 15 cents worth at a time, probably for the reason that if they delivered less they would have to carry druggists' scales to weigh it on. There is something rotten in Denmark in the ice situation, and the people of Tropico are being imposed upon in an outrageous manner.

The various committees of the Civic Club who have been investigating the different phases of the water question will hold a meeting tonight at the office of Birch & Pettit for the purpose of compiling a joint composite report for submitting to the Civic Club at a called meeting of the club at an early date, at which time every member of the club will be urged to be present and to carefully consider the report of the committee. There is no more important question before Tropico at this time than is the correct solution of the water question, and every citizen should feel a deep interest in this matter and should fully inform himself of every particular pertaining to the problem.

FAST GROWING MOVEMENT

Every once in a while someone sneeringly pokes fun at the advocates of world peace, yet probably no movement is growing in popularity more rapidly than is the movement to do away with wars between nations. During the month of May a number of distinguished Englishmen, together with representatives from Canada, Newfoundland and Australia, visited the United States in behalf of this movement.

They represented committees in the British Empire which were named a year or two ago, concurrently with committees in the United States, to prepare for celebrating the hundredth anniversary of the Treaty of Ghent.

The Treaty of Ghent was signed on Christmas Eve in the year 1814. Our American peace commissioners were John Quincy Adams, Henry Clay, James A. Bayard, Albert Gallatin, and Jonathan Russell. The purpose of the treaty was declared to be the establishment of "a firm and universal peace." A great number of matters have had to be decided by diplomatic negotiations and by reference to arbitrating boards in the century that has elapsed, but the firm and universal peace has been maintained.

Peace between the British Empire and the United States for a hundred years is a world affair, and not merely a matter of mutual congratulation. It has been a great thing for the Dominion of Canada, because it has been due to this peace and nothing else that Canada has extended to the Pacific coast and has entered upon a great national life with the good will of her only neighbor and no clouds of any kind upon her horizon. But it is also true that the great South American states owe much to this hundred years of peace between England and the United States. If this peace had been broken, the Monroe Doctrine would have lost its sanction, and the South American states in their developing period would have faced the danger of European seizure and partition. Hopes and ideals in all that concerns the life of individuals and nations rest upon experience. Every time a dispute is settled, a crisis is averted, moral principles are respected, honor and truth are upheld, and good will overcomes distrust, it becomes by just so much the easier to meet the next crisis in a spirit of forbearance and to find just solutions.

In the meantime boil your drinking water. This admonition is general policy and not due to any emergency.

THE HEALTH OFFICER.

WATCH FOR DATES

About three months ago the Pythian Sisters, the wives of the Knights of Pythias, organized the Thimble club. This club is not only for altruistic work but for social and civic work as well.

The meetings are held on the third Friday of each month at some of the members' homes, and all Pythian Sisters in Tropico are cordially invited to attend.

The last meeting of the club was held at the home of Mrs. George Marck on Tenth street, and a very enjoyable afternoon was spent working on a quilt which later will be sold to give the club funds for its altruistic work.

Refreshments, consisting of delicious Hungarian cake made by the hostess and coffee, were served.

The announcement of the next

meeting of the club will be made at the regular meeting of the K. of P.'s and in the Sentinel.

INDEPENDENCE DAWN.

Dark was the night that brooded o'er this land
And like a pall enswathed that little band
Of great, pure souls, with grave and noble mien
Who met to counsel, and decide between
An English monarchy or land made free
By blood of loved ones, shed for liberty.

O'er all this land there was no ray of light;
No star of hope to guide their steps aright;
But firm within their hearts they graved this truth:

"Slave life is base; and all bright hopes of youth
Are better dead than crushed by tyrant's hand
That heavy lies o'er all this sun-kissed land."

"We pledge ourselves our hopes, our homes, our all
That we may break the chains that now enthrall
Our fathers, brothers, sons and loved ones dear,
And make a pathway straight and broad and clear,
That all who follow in our wake may see,
And call it ever 'Route of Liberty.'"

The pledge was made, and slowly from the sea
A ray of hope shot forth, which seemed to be
The herald of a greater peace on earth.

Destined to give to Liberty its birth.
'Twas like the sudden opening of a door
Which lets the light stream brightly o'er the floor.

The shades of gloom grew less, and very soon
There came the glory of the full-tide noon.
The very heavens seemed to understand
That Freedom evermore would rule our land.

Wide swung the folding doorways, and was gone
Despair; and lo! 'twas Independence Dawn!

The gray of morn now changed to rosy light
That slowly climbed up heaven's lofty height.

All darkness fled before the brightening sky,
And suddenly, as if from power on high,
Blended with streakings of the morning grand,
There shone bright stars—this emblem of our land.

An eagle flew straight toward the welkin dome,
And plucked it thence, to grace his aerie home;
And thus on every height o'er every sea,
It sways and floats—an emblem of the free.

Where'er 'tis found, there Liberty doth dwell,
And darkness fled before the brightening sky,
And suddenly, as if from power on high,
Blended with streakings of the morning grand,

Through years of peace its folds have been unfurled
And hailed with joy throughout the entire world;
Through years of strife it was upborne with pride
By patriot sons who for our freedom died.

O martyred sons! thy lives were given free;
Thy pure, bright blood the price of liberty.

Near Cuba's isle low sunk beneath the wave,
Thou sleepest well within thy caverned grave;
And far away, by old Manila's shore,
The waves thy requiem sing forevermore.

Just was thy cause—to make thy brother free—
And all the world today doth honor thee.

And thou, bright flag, with colors bathed in tears,
Our love for thee has strengthened with the years;
And millions of our cherished sons and sires
Will heap with pride the sacrificial fires.

That thou mayst be preserved while life shall last,
An emblem of the future, as the past.

Thou floatest free in all thy beauty grand
From every schoolhouse in this thrice-blessed land,
From every home, in town, on mountain high,
Thy colors blending with the blue of sky;

Oh, may thy glories still go sweeping on
Till all the world hails Independence Dawn.

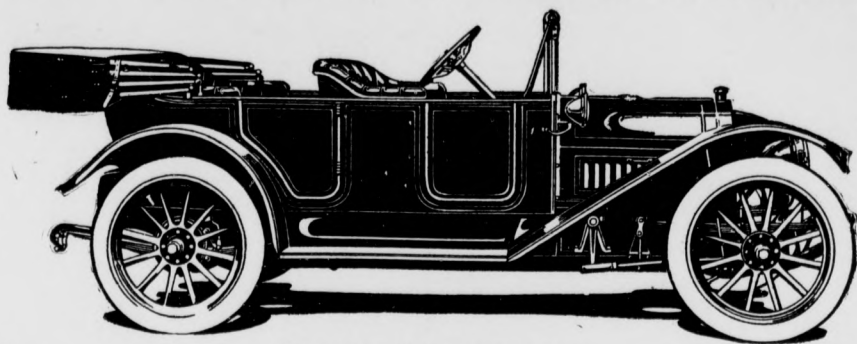

—Myra C. K. Shuey.

A SUCCESSFUL MEETING
Mrs. K. R. Sterling, delegate to the Women's Relief Corps of the G. A. R.'s, has returned from the Reno meeting, and reports that this was one of the most successful meetings ever held by the old soldier boys. Reno, and nearby cities, did everything possible to show the visiting delegates every attention and to make their stay pleasant. The delegates left Los Angeles between two and three hundred strong, and were received at Reno by a large concourse of citizens headed by the famous Indian band of that city.

Mrs. Sterling says that every moment of the stay was not only an enjoyable one, but brim full of good works. Virginia City, Carson City and Lake Tahoe were visited, and the sights of these respective neighborhoods enjoyed. Another thing that Mrs. Sterling mentions with considerable pride was the fact that during the entire meeting not one of the old soldiers was seen under the influence of liquor.

Department officers for Woman's Relief Corps for the coming year are: President, Kate Reed Field; senior vice president, Polly Martin of Reno; junior vice president, Amelia Mar Baker of Sacramento; chaplain, Columbine Walling, Nevada City; treasurer, Ella M. French of Bakersfield; secretary, Mary E. Hartwell of Los Angeles; patriotic instructor, Cora Taber, Auburn; instituting and installing officer, Ellen Summers, bishop.

HAPPENINGS

W. G. Black and wife motored to Santa Ana for a few days' visit last week.

Mrs. H. D. Sawtell, 449 Gardena, left Monday for Alameda Bay, where she will spend the summer.

Mrs. A. E. Henon, of Cedar street, left Tuesday for a two months' visit with her parents in Clarksburg, Mo.

Mrs. C. M. Turck entertained at bridge last Tuesday afternoon at her home, 521 N. Glendale avenue.

Miss Nell Dougherty, sister of Mrs. A. J. Chappius, 528 E. Acacia, left Sunday for a two weeks' visit to San Francisco.

Mr. and Mrs. C. D. Hornung, 323 Gardena, gave a farewell dinner to Mr. Hornung's mother last Thursday evening, who left Friday for her home in Michigan. All the family were present.

Mrs. H. S. Fredrickson and two daughters, Morna and Nan, spent Saturday at Long Beach. Norma and Nan will remain at the beach for the balance of the week.

S. M. Borthick, of the real estate firm of Borthick Bros., and his wife, who have been for the past month visiting friends in Salt Lake City, returned home this week.

Mrs. E. Guthrie, Mrs. W. G. Pardoe and son, Guthrie, are the guests of Mr. and Mrs. F. H. Ehmeke, of 453 Gardena avenue. Mrs. Ehmeke is a daughter of Mrs. Guthrie, and a sister of Mrs. Pardoe.

On next Wednesday afternoon at two o'clock, Mrs. L. S. Putnam, 611 Glendora, will entertain the Tropico Needle Workers. This is a new club that has just started, and everybody is invited to attend.

The stork hovering over Tropico last Tuesday morning stopped at the home of W. A. Chapman, 218 El Bonito street, and left an 8½ pound boy. That's why W. A. wears that big smile.

A meeting and conference of the trustees of the Presbyterian Church was held Tuesday evening for the purpose of considering plans for the proposed Sunday school and social house to be erected as an annex to the Presbyterian Church.

The Casa Verdugo light election carried by 62 to 13. This election was caused by some defect in the first election, which caused the county supervisors to refuse to validate the election.

Mr. P. L. Perry, 536 E. Acacia, left Thursday morning for Rochester, N. Y. Mr. Perry is going as a delegate to the Elks convention held in Rochester, and will be gone for about six weeks.

Barney Oldfield, who has a car entered in the Panama-Pacific road race, was through Tropico last Sunday on his way to the race. He is going to have a break down on Tropico avenue, which necessitated a little work before the journey was continued.

O. M. Carpenter was home for a short visit with his family this week. Mr. Carpenter is a director, manufacturer of gas engines and irrigation plants, and is also field manager. This takes a great deal of his time away from home, hence the short visit to Tropico.

Mrs. Amy E. Coughlan, wife of M. G. Coughlan, passed away at 1243 Grapahoe street, Los Angeles, on June 28th. Mrs. Coughlan has been in ill health for some time, and it was on account of her illness that Mr. Coughlan gave up his residence in Tropico and moved to apartments in the city.

Mrs. E. J. Lynn-Donecken, daughter of Mrs. A. H. Donecken, 205 East Tropico, will leave Friday for a three weeks' visit with friends in San Francisco.

The moving picture censors of Los Angeles in their annual report show that Los Angeles has 100 moving picture houses and six film exchanges. The board asks to have the same censorship over the exchanges as it does over the theaters and also asks for accommodations for viewing every film before it is given to the public.

The regular meeting of the Civic Club Tuesday evening was adjourned subject to the call of the president, at which time the reports of the various committees investigating the water question will be submitted for the consideration of the whole club. All members are urged to be present at this called meeting, which will probably be next Tuesday.

Mrs. W. A. Funk of Kansas City, Kas., arrived in Tropico this week for a two months' visit with her sister, Mrs. O. M. Carpenter, 215 N. Central avenue. Mrs. Funk is prominent in musical circles in her home city, being a very accomplished pianist and a pupil of the famous Boguslawski. California, and particularly Tropico, appeals very strongly to Mrs. Funk. She is simply de-lighted.

May Bros., contractors of Glendale, started to break ground this week on the first store building at Montrose. The building is being built for Mrs. Mary D. Greble and will be 60x112 feet, enamel brick front and pressed brick walls. Accommodations for three stores is the plan and already prospective tenants are the construction through without delay and our new neighboring city is assuming proportions. Estimates on this new building brings the contract price to \$7240.

Kindergarten—what a beautiful word Froebel gave to his beloved system of teaching. His underlying idea in education was to follow nature in the unfolding of the pupil's mind; letting it grow and expand as a plant grows according to its nature. And what grander work is there than developing these little plants that will now have an educational garden to grow in. It is better to give the children a few hours of training than to let them play all day, and with the kindergarten training they learn to play and to respect each other in their play.

W. S. Chapman has sold his interest in the Tropico Market to James V. Lewis and M. J. Kelly. These gentlemen are well known in the cities named and are experienced butchers. Mr. Chapman has many friends who

regret his retirement but the new firm promises that all old customers shall receive the best of treatment and they bespeak a continuance of the patronage heretofore accorded the market. The families of Mr. Kelly and Mr. Lewis will arrive in Tropico this week with the intention of making this their future home.

Mrs. Ella Richardson, Will, Burt, Paul and John, and Miss Alta Stone, left Sunday by the Yale for San Francisco, from which place they will sail Tuesday on the S. S. Para for the Panama Canal. After leaving the canal they will touch at Kingston, Jamaica, Antilla, Cuba, and reach New York about Aug. 7th. The party will visit Washington City, Atlantic City, Niagara Falls and the Thousand Islands until about the first of September, when Miss Stone will return to Tropico and the Richardson's boys will enter school. Mrs. Richardson remaining with them until she gets them located comfortably. Miss Stone, Mrs. Richardson, Will and Burt will be missed by a large circle of friends, but they, nevertheless, rejoice that they are enabled to take this trip, which has been planned as a real "Educational Touring" trip.

A mass meeting of earnest men and women was held Tuesday evening at the Union High School building for the purpose of discussing the proposed bond issue for high school purposes. A disposition was manifested by those present to get at the facts of the matter, and questions were freely asked and answered.

During the discussion it developed that some of the citizens were under the impression that part of the proceeds from the proposed bonds were to be used for securing additional playgrounds for the high school students. This is not true. The proceeds from the bonds will be used for acquiring the half block immediately west of the present grounds, at a cost of \$25,000, and the erection and equipment of two buildings. It further developed during the discussion that under the interpretation of the school law as made by the county superintendent, no temporary building can be erected.

WEDDING BELLS

It was a very pretty wedding ceremony that was solemnized at the home of Mr. and Mrs. George Peck of W. Tenth street, Wednesday evening, when Miss Stella B. Miller and Mr. Fred Spear were united in marriage. The handsome new home of Mr. and Mrs. Peck had been converted into a veritable bower of beauty, under the artistic touch and supervision of Mrs. H. W. Melrose. Quantities of trailing greenery furnished a most effective background for the myriads of pink and white blossoms. Tall vases supported long stemmed pink roses and pink carnations, while jardinières were overflowing with pink hydrangeas.

The bride and groom plighted their vows beneath a wedding bell of dainty pink roses, ferns and white feathery bloom, while a large silken flag was gracefully arranged as a fitting background, for the bride is one of the color-bearers of N. P. Banks Woman's Relief Corps.

Rev. C. R. Norton, of the Casa Verdugo Methodist Episcopal Church, and Past Commander of N. P. Banks Post, performed the pretty wedding ceremony. The bride was attended by her sister Miss Annie Miller, who wore a pretty gown of pink embroidered marquisette and carried an arm bouquet of pink carnations. Mr. Everett Peck, the bride's step-brother attended as best man. The two little flower girls, Jessie and Dorothy Dutton, cousins of the bride, in dainty white frocks, strewed the pathway of the bride with white rose petals. The bride, who is the eldest daughter of Mrs. George Peck, was one of the most charming of all the June brides and her handsome gown of white embroidered marquisette displayed with pleasing effect the sweet girlish beauty of the bride. A cluster of orange blossoms was arranged in the brown tresses, while a shower bouquet of white carnations, completed the bride's handsome toilet. The white carnation was chosen by the bride as it was the favorite flower of her father, the late Albert Miller. As the bride comes of a most patriotic family she desired that the emblem of her country find a conspicuous place among the decorations; and the bride's handmaid, the late Albion D. Haggood, served during the Civil War a member of N. P. Banks Post, he having given the name to the Post, to commemorate the memory of his general during his years of service, General N. P. Banks. The bride's grandmother, Mrs. Delia Haggood, is the past Department Patriotic Instructor of the states of California and Nevada, as well as past president of the local W. R. C. Miss Elsie Vance, cousin of the bride, who presided at the piano during the ceremony, and who is also one of the color-bearers of N. P. Banks W. R. C., rendered patriotic airs following the ceremony.

After a brief wedding trip Mr. and Mrs. Spear will be at home to their friends at 1545 Penn street, where the groom with provident care has furnished a pretty bungalow home. The bride has been the recipient of a number of bridal showers, as she is one of the most popular of Tropico's young society girls. Among the many beautiful articles which have been presented the charming young bride is a beautiful piece of art needlework, designed and worked by the great-grandmother of the bride, Mrs. Salome Haggood of Boston.

Wedding guests included relatives and friends from Los Angeles, Pasadena, Pomona, El Monte, Hollywood, Huntington Beach, Van Nuys, Glendale and Tropico.

AN INTERESTING SERVICE PROMISED

At the First Presbyterian church will be held Sunday a special meeting commensurate of the Gettysburg battle. The subject of the sermon will be entitled "The Gospel at Gettysburg."

Music appropriate to the occasion has been provided.

A special feature will be a reminiscence talk by Mr. N. C. Burch, a prominent member of the church, and at one time an elder. Mr. Burch was in Washington as guard on duty in the Interior Department building during the Gettysburg battle, and saw General Sickles carried by on a stretcher, after this gallant old warrior was wounded. Mr. Burch was active in touch with men and conditions during those stirring days, and his talk will, no doubt, be instructive as well as very interesting. The meeting will open

promptly at 11:00, and promises to be most impressive and entertaining.

Panama-Pacific Auto Race

A few minutes after 12 o'clock on the night of July 3rd the first of fifty-one cars entered in the Panama-Pacific road race will buzz through Tropico, and every two minutes thereafter another, until the whole fifty-one have passed. The cars start from Fiesta Park, Los Angeles, and in Tropico will enter by way of San Felipe Road (Tropico avenue), and turn on to San Fernando Road. Some of the most noted drivers are entered in this race and prizes offered worthy of efforts.

set, and instead of being difficult work for the big tractor, it turned out to be a very simple feat. Simultaneously with this remarkable demonstration word was received by the Knox company of a similar stunt performed by one of its tractors in Los Angeles, Cal., where a smaller house was pulled by the tractor on wheels instead of rollers, using a direct hitch without any block and tackle intervening for assistance. It had required the combined efforts of 24 stout mules to move this building before the tractor was utilized.

There is small wonder that this latest motor giant is awe-inspiring in its great demonstrations of power and endurance and the nickname which has been applied to it of "The Tugboat of Land Commerce" would seem to be richly deserved.

One of notable events of the past week was the private masquerade, given by Mr. and Mrs. A. H. Gaarder, at their beautiful new home, 323 N. Glendale. The house was prettily decorated with Shasta daisies and ferns. The costumes were handsome and unique. Dancing and games whiled away the happy hours until midnight, when a collation was served in the dining room. The pleasant evening was ended by flash light pictures. Thirty-five ladies and gentlemen from Tropico and Los Angeles were present.

ST. MARKS EPISCOPAL CHURCH

Services for Sunday next at St. Mark's church, corner of Louise and Fifth streets, Glendale, are as follows: Celebration of the holy communion at 7:30; Sunday school in the Sunday school room promptly at 9:30; morning prayer and sermon at 11 o'clock.

Sunday being the first Sunday of the month, the second celebration of the holy communion will take place at 11 o'clock.

Auxiliary Meets

The Ladies' Auxiliary of St. Marks will meet in the Church Guild hall on Friday afternoon, July 4th, at 2:30 o'clock.

The Bible Study Class will be held then, this week, in place of Tuesday as first intended.

Supper

The Ladies' Guild of St. Mark's church will hold a Meat-Pie supper at twenty-five cents per plate in the Guild Hall of the church on Friday, July 11, from 5:30 until 7 o'clock.

During the evening a program will be given and those coming after supper will be requested to pay an admission fee of ten cents.

IT'S SOME MOTOR.

There is a machine made in Springfield, Mass., called the Knox-Martin tractor, which has been performing so many wonderful feats of late that were the natives at all superstitious, they would have good reason for believing it possessed of an uncanny power.

Not long ago this motor vehicle hauled over 27 tons of coal and scrap iron in three bodies trailing behind each other up one of the city's most important hills. It easily drags a heavy water tower belonging to the local fire department up any hill in the city and walks off with a big steel body containing fifteen tons of ashes with as much apparent ease as a child pulling a toy cart.

Not satisfied with these feats, however, this young motor giant has lately turned to house moving as more nearly a match for its strength, but instead of being content with merely pulling one house weighing fifty tons, a task which would certainly have satisfied any ordinary motor beast, it was actually audacious enough to attempt to haul two 50-ton houses at the same time, as well as carrying six tons of rock on its back for ballast.

That it successfully accomplished this gigantic task will be warmly testified to by the workmen who were kept scrambling after rollers and track timber to keep up with the fast pace it

RAZ TUCKER STATES

That Jabez Tupper is somewhat of a philosopher. Jabez said, "That you can strain honey, but you can't strain honesty." That's pretty good for Jabez to say without thinking.

Lavina Stone quit her job in the department store and is back home, having worked only one day. Lavina says that a man came in and asked her where the gentlemen's lingerie department was and she left the store at once.

One of notable events of the past week was the private masquerade, given by Mr. and Mrs. A. H. Gaarder, at their beautiful new home, 323 N. Glendale. The house was prettily decorated with Shasta daisies and ferns. The costumes were handsome and unique. Dancing and games whiled away the happy hours until midnight, when a collation was served in the dining room. The pleasant evening was ended by flash light pictures. Thirty-five ladies and gentlemen from Tropico and Los Angeles were present.

ORDINANCE NO. 60.

AN ORDINANCE OF THE BOARD OF TRUSTEES OF THE CITY OF TROPICO ESTABLISHING THE GRADE OF BLANCHE AVENUE IN SAID CITY.

of Tropic do ordain as follows:

The Board of Trustees of the City of Tropic do ordain as follows:

SECTION 1. That the grade of Blanche Avenue from the South line of Cypress Street to the North line of Cypress Street be and the same is hereby established as follows, to-wit:

At the intersection with the South line of Cypress Street the grade shall be 473.50 on the East line and 473.50 on the West line.

At a point on the West line 450 feet South from the South line of Cypress Avenue the grade shall be 469.40, and at a point on the East line 400 feet South from the South line of Cypress Avenue the grade shall be 470.40.

At the intersection with the North line of Cypress Street the grade shall be 463.80 on the West line and 464.20 on the East line.

That between these points the grade shall conform to straight lines joining these points on the same side of the street, excepting that the points of intersection of the grade lines on the East and West lines, 400 feet and 450 feet South from the South line of Cypress Avenue, shall be the points of intersection of tangents of vertical curves, which shall extend 100 feet North and South from said points of intersection, and that said curves shall supplant the straight lines within said limits.

The grades given are in feet above the City Datum Plane, as established on the curb lines of said Blanche Avenue, and refer to the top of curb.

The profile of Blanche Avenue designated and marked Profile No. —, on file in the office of the City Engineer of the City of Tropic, is hereby declared to be the official profile and to exhibit the established grade of said Blanche Avenue.

SECTION 2. The City Clerk shall certify to the passage of this Ordinance and shall cause the same to be published once in the Tropic Interurban Sentinel, a weekly newspaper of general circulation, published and circulated in the said City of Tropic, and thereafter the same shall be in full force and effect.

Adopted this 26th day of June, 1913.

SCHOOL BOND ELECTION NOTICE

Notice is hereby given to the qualified electors of Tropic City, School District of the County of Los Angeles, State of California, that in accordance with the provisions of the Political Code of the State of California, an election will be held on the 19th day of July, 1913, at the school house in said District, between the hours of 1:00 p. m. and 5:00 p. m. (during which period and between which hours the polls shall remain open), at which election the question of issuing and selling bonds of said district to the amount of twenty thousand dollars, for the purpose of raising money for purchasing school lots, for building or purchasing one or more school buildings, for insuring the same, for supplying the same with furniture or necessary apparatus, and for improving school grounds will be voted upon.

The said bonds thereunder to be issued and sold, shall be of the denomination of one thousand dollars each, and shall bear interest at the rate of 5% per cent per annum, payable semi-annually, and shall be numbered from 1 to 20 consecutively, payable as follows:

Bond No. 1, one thousand dollars, to run 1 year.

Bond No. 2, one thousand dollars, to run 2 years.

Bond No. 3, one thousand dollars, to run 3 years.

Bond No. 4, one thousand dollars, to run 4 years.

Bond No. 5, one thousand dollars, to run 5 years.

Bond No. 6, one thousand dollars, to run 6 years.

Bond No. 7, one thousand dollars, to run 7 years.

Bond No. 8, one thousand dollars, to run 8 years.

Bond No. 9, one thousand dollars, to run 9 years.

Bond No. 10, one thousand dollars, to run 10 years.

Bond No. 11, one thousand dollars, to run 11 years.

Bond No. 12, one thousand dollars, to run 12 years.

Bond No. 13, one thousand dollars, to run 13 years.

Bond No. 14, one thousand dollars, to run 14 years.

Bond No. 15, one thousand dollars, to run 15 years.

Bond No. 16, one thousand dollars, to run 16 years.

Bond No. 17, one thousand dollars, to run 17 years.

Bond No. 18, one thousand dollars, to run 18 years.

Bond No. 19, one thousand dollars, to run 19 years.

Bond No. 20, one thousand dollars, to run 20 years.

That Myra Shuey will act as Inspector and N. C. Burch and Hattie Peters will act as the Judges of said Election, and conduct the same, said Inspector and judges being competent and qualified electors of said School District.

In Witness Whereof, we have hereunto set our hands this 19th day of June, 1913.

JAMES RICH,
ABBY P. BARKER,
CLYDE R. CARMACK,
Trustees of said School District, Los Angeles County, California.

In Districts in which the number of children between five and seventeen years of age exceed 500, the polls must be opened at 8 o'clock a. m. and kept open until sundown. In other Districts the polls must not be opened before 9 o'clock a. m. nor kept open less than four hours, nor later than sundown.

June 25-July 24-25

NOTICE OF THE FILING OF THE ASSESSMENT FOR THE LAYING OUT, OPENING AND WIDENING OF BRAND BOULEVARD, BETWEEN THE NORTHEASTERLY LINE OF SAN FERNANDO ROAD AND THE SOUTHERLY LINE OF PARK AVENUE, IN THE CITY OF TROPICO, CALIFORNIA, TOGETHER WITH THE DIAGRAM OF THE ASSESSMENT DISTRICT FOR SAID IMPROVEMENT.

NOTICE IS HEREBY GIVEN THAT the Street Superintendent of the City of Tropic has filed with the Clerk of the Board of Trustees of said City of Tropic, the Assessment for the laying out, opening and widening of Brand Boulevard between the Northeastly line of San Fernando Road and the South line of Park Avenue, in the City of Tropic, as contemplated by Ordinance No. 17 of said City, together with the diagram of the Assessment District.

The date of the first publication of this Notice is June 18th, 1913, and all parties interested are hereby required to file in writing their objections, if any they have, to the confirmation of said Assessment by the Board of Trustees of said City with the said City Clerk within thirty (30) days after the said date of the first publication of this Notice, to-wit: On or before July 18th, 1913.

Persons signing objections must give Post Office address.

S. M. STREET,
City Clerk and ex-Officio Clerk of the Board of Trustees of the City of Tropic.
By J. L. FISHBACK, Deputy.
June 18, 25, July 2.

ORDINANCE NO. 61.

AN ORDINANCE OF THE CITY OF TROPICO FIXING WATER RATES THAT SHALL BE CHARGED AND COLLECTED BY ANY PERSON, COMPANY OR CORPORATION FOR WATER FURNISHED TO SAID CITY, OR TO THE INHABITANTS THEREOF, FOR THE YEAR COMMENCING JULY 1ST, 1913, AND PRESCRIBING RULES AND REGULATIONS FOR THE GOVERNMENT OF THE WATER SERVICE, AND FIXING A PENALTY FOR THE VIOLATION OF SUCH ORDINANCE.

The Board of Trustees of the City of Tropic do ordain as follows:

SECTION 1. That the rates or compensation to be collected by any person, company or corporation for water supplied to the City of Tropic, or to the inhabitants thereof, for the year commencing July 1st, 1913, are hereby fixed and established, as follows:

MONTHLY RATES WHERE NO METER IS USED.

1. For each tenement or dwelling house occupied by a single family.....\$.75

2. For sprinkling lawns and gardens, or hose use of any kind, for lots 150 feet in depth, per front foot..... .01

Provided that if a lot be a corner lot, occupied by more than one separate tenement or dwelling house, yard use for each additional house..... .25

For all additional area of lots a proportionate charge may be made, provided, however, that a proportionate reduction shall be made if lot be less than 150 feet in depth.

3. For each store or shop on ground floor..... 1.00

4. For each office on ground floor equipped with plumbing and necessary facilities for the use of water..... .50

5. For each office above ground floor equipped with plumbing and necessary fixtures for the use of water..... .25

6. For barber shops, with one chair only..... 1.00

7. For each additional chair..... .25

8. For each bath in a barber shop or tubbing establishment..... 1.50

9. For each cow..... .25

10. For each horse..... .25

11. For each place of business having a separate water service, not otherwise specified, the water rate shall be, per month..... 1.00

12. For water for each barrel of lime or cement, per barrel..... .05

13. For each 1,000 brick laid, including water for wetting..... .10

14. For cement curb, for each 100 lineal feet..... .25

15. For cement walks, for each 100 square feet..... .15

16. For water for setting pipe trenches, for 100 lineal feet, for each 2 feet in depth..... .75

17. For water used in setting graded streets, per 100 lineal feet..... .75

18. For water used in sprinkling streets of City of Tropic, for each tank of 600 gallons used..... .065

MONTHLY RATES WHERE WATER IS FURNISHED THROUGH METER.

SECTION 2. That the monthly rates to be charged and collected when meters are used are hereby fixed as follows:

1—For each dwelling house or separate building used only as a private residence:

A. For 800 cubic feet or less per month.....\$1.25

B. For each 100 cubic feet in excess of 800 cubic feet per month..... .07

Where a meter is installed, as here provided, the minimum rate for water furnished shall be \$1.25 per month. When water is furnished through the same meter for use in more than one dwelling house, the minimum rate may be charged for each such dwelling house. No charge in excess of said aggregate minimum rate shall be made until the total amount of water as measured through said meter shall exceed an amount which shall be equivalent to 800 cubic feet for each such dwelling house. When the amount of water furnished exceeds said amount during any calendar month, it may be charged for at the rate of seven cents per 100 cubic feet.

2—A. For each store or shop on ground floor the minimum rate shall be, for 640 cubic feet or less per month.....\$1.00

B. For each office on ground floor equipped with plumbing and necessary facilities for the use of water, for 320 cubic feet or less per month..... .50

C. For each office above ground floor equipped with plumbing and necessary fixtures for the use of water, for 160 cubic feet or less per month..... .25

D. For each business house or building used for business purposes where the water supplied is measured through only one meter, for 800 cubic feet or less per month..... 1.25

E. For each additional 100 cubic feet furnished each month in addition to the minimum rates above specified in Subdivisions A, B, C and D hereof..... .07

SECTION 3. Whenever property is vacant or unoccupied, and the owner or his agent or lessee notifies the person or company furnishing water, in writing, that until further notice no water will be required on said premises for house use or yard use, or both, then there shall be no charge for water on said premises for the use or uses so specified in said notice from the time of so notifying the person or company, so furnishing water, until a further written notice is given by such owner, agent or lessee, that the discontinued service be resumed. By "yard use," as herein used, is meant any and all use on a lot or lots outside of the buildings or structures thereon. By "house uses," as herein used, is meant any and all use in any building, house or structure.

SECTION 4. Any person, company or corporation supplying or distributing water to the City of Tropic, or its inhabitants, shall maintain an office or place of business in said City of Tropic, and shall have a person in charge thereof during business hours of each business day, who shall be authorized to collect the water rates for such person, company or corporation, and to receipt therefor, and no such person, company or corporation so supplying water that does not comply with the provisions of this section shall have the right to impose any penalty or charge for non-payment of water rates or delinquency in such payment, or to shut off the water from any water consumer for the non-payment of any water rates or for delinquency in any such payment.

SECTION 5. That all bills for water used shall be payable at the office, in the City of Tropic, of the person, company or corporation furnishing the same, as follows:

For water furnished during any month, or part thereof, on the first day of the succeeding month, and if not paid on or before the 10th of said month, a penalty of ten per cent of the amount of the bill shall be added, and it shall be the duty of the person, company or corporation to whom such water rate is payable to send notice of such delinquency to the water consumer, and if this total amount is not paid on or before the 25th day of said month, the water may be shut off from

the premises from which the delinquency has occurred, and the water shall not again be turned on until all the arrearages and fifty cents in addition thereto for turning on the water shall have been paid; and no other or additional penalties for delinquencies shall be imposed, except as herein provided. All bills rendered shall show the previous and present months' reading.

SECTION 6. That any consumer or water rate payer, upon application therefor, shall have the right to require any person, company or corporation furnishing water for domestic use in the City of Tropic to such consumer or water rate payer, to install a meter of standard make upon the premises of such water rate payer or consumer in said City of Tropic, at the expense of the person, company or corporation supplying water thereto, for the purpose of measuring the water consumed thereon, and thereafter such consumer or rate payer shall pay the meter rates provided for herein, provided that no rate for water measured by a meter shall be less than the minimum meter rate herein specified; and any person, firm or corporation supplying water may, at his or its own expense, apply a meter in any case, and may charge the meter rate specified in this Ordinance. All meters used for measuring water supplied to consumers under this Ordinance shall be subject to test and inspection either by the consumer or by the person, company or corporation supplying water through the same, and if any such meter be found incorrect it shall be repaired or new meter installed, so as to correctly measure such water, and in default thereof, water rates for the premises for which such defective meter is in use shall be paid according to the schedule of flat rates above given.

SECTION 7. Every person, company or corporation supplying water to the inhabitants of the City of Tropic for other than irrigation purposes shall, upon written demand therefor, within five days after such demand is made, make a service connection for the water or occupant of any premises in said City of Tropic fronting on the street wherein the water main of such person, company or corporation is laid, by inserting a tap in said main and laying the service pipe therefrom to a point inside the curb line in front of such premises.

SECTION 8. In no case shall the cost of the installation of the meter, or of any part thereof, or of providing, furnishing or maintaining a meter, be borne by the consumer, but it shall be the duty of the person, company or corporation furnishing water to provide, furnish, install and maintain all water meters, without expense to the consumer or water rate payer.

SECTION 9. Any person who shall charge, demand, collect or receive, either as principal or as agent, collector or employee of any corporation, company or person furnishing water to the inhabitants of the City of Tropic, for other than irrigation purposes, any sum whatever for making such service connection, or installing a meter, or for maintaining or repairing the same, shall be guilty of a misdemeanor, and upon conviction thereof shall be punishable as hereinafter provided.

SECTION 10. It shall be unlawful for any person, company or corporation, either as principal, agent, employee, or otherwise, to charge, demand, collect or receive any rate or compensation for water supplied during the year commencing July 1st, 1913, to the City of Tropic, or to any inhabitant thereof, in excess of the rate fixed by this Ordinance.

SECTION 11. That any person, company or corporation violating any of the provisions of this Ordinance shall be deemed guilty of a misdemeanor, and upon conviction thereof shall be punishable by a fine of not more than Three Hundred (\$300.00) Dollars, or by imprisonment in the County Jail of the County of Los Angeles for a period of not more than three months, or by both such fine and imprisonment.

SECTION 12. This Ordinance is urgently required for the immediate preservation of the public peace, health and safety, and the following is a specific statement showing the urgency of this Ordinance:

The said City of Tropic has no Ordinance fixing rates or regulating water service on and after July 1st, 1913, and such an ordinance is now immediately required.

SECTION 13. The City Clerk shall certify to the passage of this Ordinance by a vote of four-fifths of all the members of the Board of Trustees of said City of Tropic, and is approval by the President of said Board, and shall cause said Ordinance to be published in said Tropic Interurban Sentinel, a weekly newspaper of general circulation published and circulated in said City of Tropic, and thereupon and thereafter I shall take effect and be in force.

Adopted this 26th day of June, 1913.

C. A. BANCROFT,
President of the Board of Trustees of the City of Tropic.

Attest:
S. M. STREET,
City Clerk.

(Seal.) By J. L. FISHBACK, Deputy.
STATE OF CALIFORNIA, CITY OF TROPICO—SS.

I, S. M. Street, City Clerk of the City of Tropic, do hereby certify that the whole number of members of the Board of Trustees of the City of Tropic, as fixed by the Ordinance was passed and adopted by a vote of four-fifths of all its members, and approved by the President of said Board, at a regular meeting thereof, held on the 26th day of June, 1913, and that the same was passed by the following vote:

Ayes: Bancroft, Conrad, Oliver, Webster.
Noes: None.
Absent: Hobbs.

IN WITNESS whereof I have hereunto set my hand and affixed the official seal of the City of Tropic, this 26th day of June, 1913.

(Seal.) S. M. STREET,
City Clerk of the City of Tropic.

Parcel post stamps will be valid on all classes of mail on and after July 1, and ordinary stamps, including commemorative issues, will be good for postage on parcel post packages, under no order issued by Postmaster General Bureson.

NOTICE INVITING STREET WORK PROPOSALS.

Pursuant to Statutes, and to Resolution 134 of the Board of Trustees of the City of Tropic, California, adopted the 19th day of June, 1913, directing this notice, the undersigned, in-vites, and will receive at his office in the City Hall, in the Bank of Tropic Building, located at the junction of Central Avenue and San Fernando Road in the City of Tropic, up to 7:00 o'clock p. m. of Thursday, July 3rd, 1913, sealed proposals or bids for the following street work to be done according to the plans and specifications posted and on file therefor adopted, or herein mentioned, to-wit:

First—That

CYPRESS STREET from the easterly line of Glendale Avenue to the southerly prolongation across Cypress Street of the easterly line of Mountain Avenue, including all intersections of streets, be graded, oiled and tamped to the official grade in accordance with plans and profiles on file in the office of the City Engineer and in accordance with Specifications Number 9 for the grading, oiling and tamping of streets in the City of Tropic.

Second—That a cement curb be constructed along each line of the roadway of said Cypress Street, from the easterly line of Glendale Avenue to the southerly prolongation across Cypress Street of the easterly line of Mountain Avenue, including returns at all street and alley intersections, in accordance with Specifications Number 2 for the construction of cement curbs in the City of Tropic.

Third—That a cement sidewalk five feet in width be constructed along each side line of Cypress Street, from the easterly line of Glendale Avenue to the southerly prolongation across Cypress Street of the easterly line of Mountain Avenue, including returns at all street intersections, in accordance with Specifications Number 1 for the construction of cement sidewalks in the City of Tropic.

Fourth—That

MOUNTAIN AVENUE from the southerly line of Cypress Street to the northerly line of Tract Number 282, as per map recorded in Book 14, pages 118 and 119, of Maps, Records of Los Angeles County, California, including all intersections of streets and alleys, be graded, oiled and tamped to the official grade, in accordance with plans and profiles on file in the office of the City Engineer and in accordance with Specifications Number 9 for the grading, oiling and tamping of streets in the City of Tropic.

Fifth—That a cement curb be constructed along each line of the roadway of said Mountain Avenue, from the northerly line of Cypress Avenue to the northerly line of said Tract Number 282, including returns at all street and alley intersections, in accordance with Specifications Number 2 for the construction of cement curbs in the City of Tropic.

Sixth—That a cement sidewalk five feet in width be constructed along each side line of said Mountain Avenue, from the northerly line of Cypress Street to the northerly line of Tract Number 282, in accordance with Specifications Number 1 for the construction of cement sidewalks in the City of Tropic.

Section 2—All plans and profiles referred to in this resolution are on file in the office of the City Engineer of said city. All specifications referred to in this resolution are on file in the office of the City Clerk of said city. Said plans, profiles and specifications are hereby referred to for more particular description of said work and made a part hereof.

Section 3—The Board of Trustees of the City of Tropic determines that serial bonds shall be issued to represent assessments of twenty-five dollars (\$25.00) or over for the cost of said work or improvement; said serial bonds shall extend over a period ending nine (9) years from and after the second day of January next succeeding the date of said bonds, and an even annual proportion of the principal sum thereof shall be payable by coupon, on the second day of January of every year after their date until the whole is paid; and the interest shall be payable, semi-annually, by coupon, on the second days of January and July, respectively, of each year, at the rate of seven (7) per cent per annum on all sums unpaid, until the whole of said principal and interest are paid. Said bonds shall be issued in accordance with the provisions of an Act of the Legislature of the State of California, entitled "An Act to provide a system of street improvement bonds to represent certain assessments for the cost of street work and improvement within municipalities," and also approved February 27, 1893, and of all acts supplementary thereto or amendatory thereof.

Bidders must file with each proposal or bid a check payable to the order of the President of the Board of Trustees of the City of Tropic, certified by a responsible Bank, for an amount which shall not be less than ten per cent. of the aggregate of the proposal, or a bond for the said amount, and so payable, signed by the bidder and two sureties who shall justify before any officer competent to administer oaths, for double the said amount, and over and above all statutory exemptions. In bidding, use blanks which will be furnished by the City Clerk upon application.

Tropic, California, June 19th, 1913.

S. M. STREET,
City Clerk and ex-Officio Clerk of the Board of Trustees of the City of Tropic.

By J. L. FISHBACK, Deputy.
June 25, July 2-21.

Burbank has practically completed all arrangements for taking over its water plant. It is expected that the transfer will take place this week. The bonds have been placed and all that is delaying the transfer is a few minor details.

CARD OF THANKS

When in the hour of affliction like ours, friends minister unto the afflicted one, and stand by us down through the months of anxiety, remaining faithful even unto the end; we feel the bond of friendship strengthened and say with hearts filled with gratitude, Thank God for friends like these.

A LETTER
Dear Mr. Booth: We are all only just recovering from a severe illness. It was like this: We ran short of coffee before your regular fellow, who said his was just as good as yours. Well, never again. That was like to have finished us all off. Doctor says he just caught us in time. In future, Mr. Booth, please call every week at my house and leave us some of your Better Coffee.
